AMETROS

## Help Your Client Save Their Medical Funds after Settlement

They can activate Amethyst in less than 5 minutes at [amethystcard.com](http://amethystcard.com)!

**Amethyst securely links to your client's personal bank account...**

Amethyst's secure Healthcard links to your client's bank account and helps facilitate all of their care-related payments. They will always remain in complete control of their settlement funds.

The Amethyst member card works like a traditional insurance card with no copays or extra charges, helping them get the care they need.

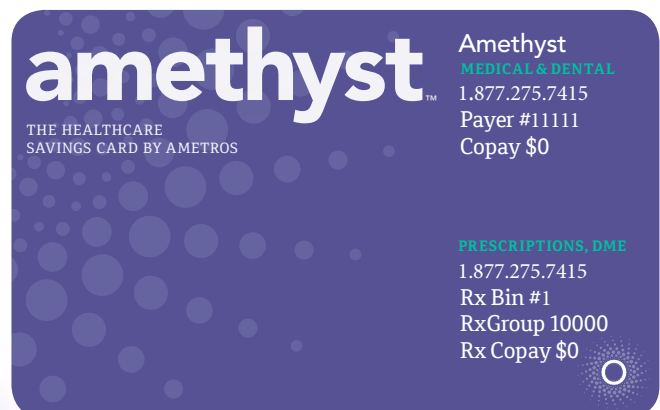

Amethyst's care advocates will advise your client on reporting their Medicare Set Aside to Medicare, if necessary.

Your client can be setup with Amethyst at settlement or anytime thereafter. Amethyst can step in and provide support to clients whose cases you closed long ago!

**...and saves them an average of 21% on their projected healthcare expenses**

Use Amethyst after settlement to help ensure your client's settlement money will go further so someday they can pass it on to their family, estate, or beneficiaries.

**Save 21 cents on every \$1.00!\***

\*Example based on average savings data.
