

Ametros & Trusts

Helping injured individuals save on their medical costs

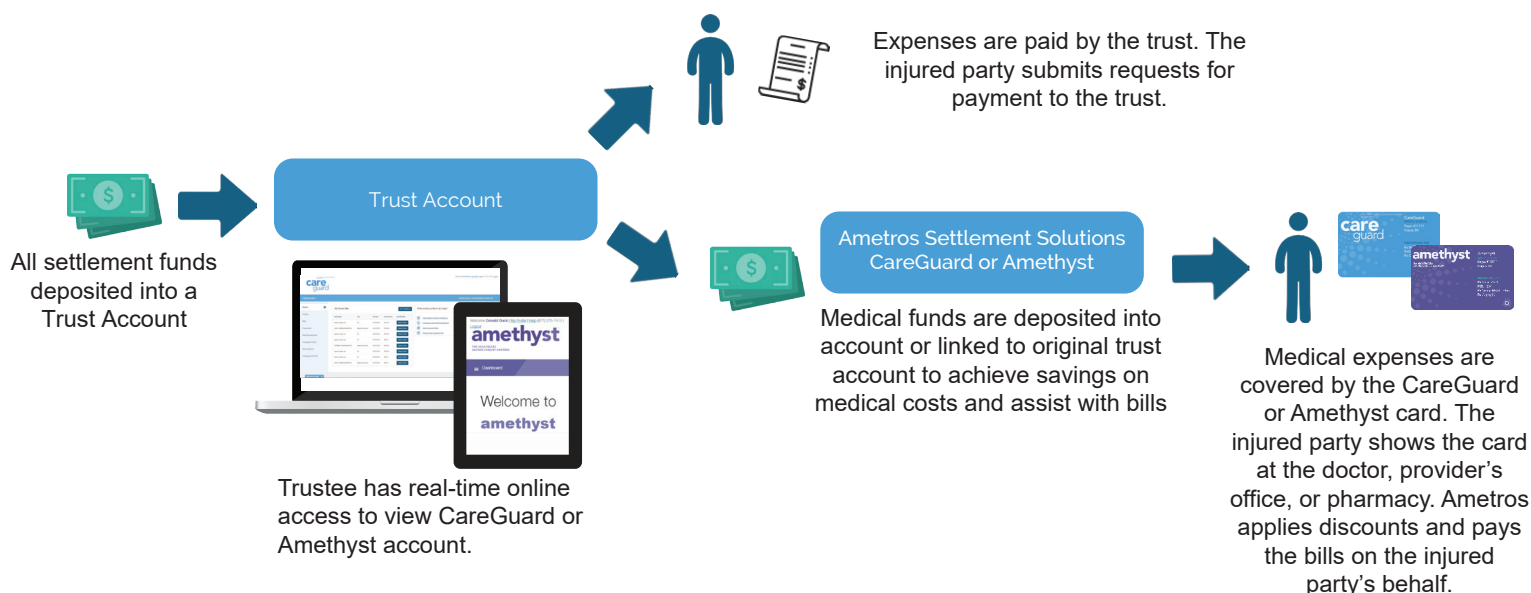

Combining a Trust with Ametros' settlement solution services, CareGuard or Amethyst, means injured individuals receive savings and maximum discounts on all healthcare expenses.

Ametros' healthcare experts protect injured individuals' interests by helping to coordinate their care and provide support to answer all questions and concerns about the billing, tracking and savings of their trust account.

Many injured individuals do not realize they are overpaying on their healthcare-related expenses when they pay directly out of the trust without administrative review.

Ametros' services are another layer of protection:

- Medical funds will last longer
- Setting up an account with either CareGuard or Amethyst will make the management of the Trust seamless
- Trustees can easily set up and manage multiple accounts with Ametros as an administrator
- Ametros' services provide a lifetime of professional administration (CareGuard) or self-administration (Amethyst) for a one-time cost
- Savings on medical expenses from prescriptions and doctor bills to home modifications, vehicles, medical equipment and more
- Trustee has visibility into their account to view all bills and transactions being processed through their online CareGuard or Amethyst portal

Trust Management with CareGuard or Amethyst

Banking:

Trustee disburses funds to dedicated CareGuard account. CareGuard is custodian.

Funds remain in the original trust account. Trustee provides Amethyst with debit card information for the account or a daily balance file.

Medical Billing:

Bills paid automatically from the CareGuard account. Trustee not involved.

Amethyst charges debit card or will invoice Trustee for approval.

Discounts:

28% discounts on average

21% discounts on average
