

When Should I Involve Ametros?

Involve us if the injured party:

Is afraid their settlement money will run out:

With both our CareGuard and Amethyst services, we offer maximum discounts on all medical expenses. Through our group buying power we are able to extend the life of their medical funds, ensuring that they last as long as possible.

Has MSA reporting concerns:

In the case of an MSA, with CareGuard, we take care of all the required reporting to Medicare. We ensure 100% Medicare compliance keeping the injured party's benefits intact. With Amethyst, we provide pre-filled reports that the injured party can use for their Medicare compliance.

Wants help managing their medical funds:

With Ametros' CareGuard or Amethyst services, we provide post-settlement management tools to help the injured parties manage their medical funds. The injured party receives a card that works like a traditional insurance card, directing all of the bills straight to us. As one of our members, the injured party never has to touch a bill!

Wants to pay less than full price for medical care:

CareGuard offers savings up to 60% on provider bills, and 28% on all other medical expenses. Amethyst offers savings up to 21% on provider bills and all medical expenses. With either service the injured party saves a significant amount of their funds, allowing them to last longer.

How We Can Help

CareGuard provides professional administration of injured individuals' settlement funds.

CareGuard pays their bills, submits any required reporting to Medicare, and saves them an average of 28% on healthcare spending.

Amethyst helps injured individuals save an average of 21% on their ongoing healthcare expenses, complete their MSA reporting, and much more!

Funds remain in the injured individual's own bank account.
